

INDUSTRIAL STORMWATER MANAGEMENT WORKSHOPS

presents:

Reasons to Attend:

- Stay up-to-date with NPDES regulations and permit requirements
- Learn how to develop a Stormwater Pollution Prevention Plan and Spill Prevention and Emergency Cleanup Plan
- Meet with professionals in the industry and get ideas and resources for meeting your tough stormwater challenges
- Our unique workshop offers an anonymous forum to pose your tough stormwater questions where in turn ECOSS will seek resources to help answer those questions
- Learn from previous questions posed from prior classes
- Learn how companies have reached compliance using relatively simple Best Management Practices
- Learn what your company can do to prevent costly permit violations
